## NO ROOM IN OHIO FOR SYNDICALISM DAVIS DECLARES

Governor Announces He Will Fight Repeal of Law.

Organization Seeks to Have Anti-Radical Law Abrogated.

Columbus, Feb. 21.—Governor Davis today issued a statement condemning efforts made by the American Civil Liberties Union of New York to bring about repeal of Ohio's criminal syndicalism law passed by the last legislature to prevent red activities.

The governor said he would oppose such efforts with all his authority, asserting that "this is no time to release the barriers against Bolshevist and terrorist activities."

"This law was enacted for the protection of American institutions and interests against anarchistic activities," said the governor. "It makes it a felony to advocate a doctrine of crime, malicious injury or destruction, violence or other unlawful methods of terrorism as a means of accomplishing industrial or political unrest."

"Repeal of the syndicalism act would amount virtually to an open invitation by Ohio to the advocates of blood and destruction to march this state in their limited field of action. There is no room in Ohio for that sort of a doctrine."

## LOCAL BODIES ENDORSE OFFER

Every Effort Will Be Made to Have Child Hygiene Bureau Located in Newark.

Every effort is being made to secure an enthusiastic endorsement for the securing of the Child Health demonstration meeting of the committee appointed Friday night with the chamber of commerce. Saturday the chamber is actively engaged in giving them its every support.

Today letters are being sent all the organizations in the city setting forth the plans and the advantages to be gained if Licking county is selected for a period of five years for this instructive and constructive work. It will mean visitors from representative citizens, and professional men from all parts of the world, public clinics, demonstrations in the school and many other features.

The committee of which Superintendent O. J. Barnes is chairman will visit the Ohio State department of health next week to show the letters which every organization in the city is asked to write making a strong appeal to have Licking county selected. These letters are to be forwarded to the chamber of commerce.

The farm bureau at a meeting Saturday endorsed the activity and the Ministerial association is meeting this morning to consider it.

## SURVIVOR TELLS OF KILLING OF CADETS

London, Feb. 21.—The first detailed authentic account of the killing of 37 auxiliary cadets of the Royal Irish Constabulary by a party of Sinn Feiners near Maerom, Ireland, on November 28th has just been obtained from the sole survivor of the ambush, Lieutenant J. F. Forde. The lieutenant has recovered from his wounds in a London military hospital. All previous accounts of the affair have been based on deductions, in the absence of reports from the scene.

Lieutenant Forde suffered a bullet wound in the head and was clubbed with the butt of a rifle and left for dead.

He says that the two motor cars carrying the cadets were attacked as they were passing between rocky declivities on either side just as the leading car ran into a ditch which had been prepared for it. Many of those in the first car were wounded by the first fire from forces concealed behind huge rocks.

Those in the second car came up and fought until the last man fell wounded. Forde was lying wounded when he heard the order to cease fire. He adds: "Then a large number of attackers from both sides rushed into the road. They wore the uniform of British soldiers and handled us all very roughly, not excepting the dead. After knocking us about they called on us all to stand up. Two of the party were able to get to their feet and were immediately shot down at close range by the 'shinners.' One of the cadets near me groaned and turned over. One of the civilians plunged a bayonet into his back. I muttered something and he turned to me and after cursing me, said it would be my turn next. I could see that he was going through the chief hell under the cadets who were being brutally treated. One of the civilians tried to pull a gold ring from my finger, but failed. The next thing I remember was when one of them rolled me over roughly, to see, I suppose, whether I was dead.

"When I woke up it was pitch dark. The ambushers had retired to their positions and occasionally fired a few shots."

Tomorrow promises to be a memorable day in Newark, for in addition to celebrating the birthday of George Washington, the city will do honor to Lord Mayor Donal O'Callaghan of Cork, Ireland, who will be the city's guest for the greater part of the day.

All indications point to a reception for the distinguished Irish city executive such as he received in New York and Philadelphia, and men, women and children of every creed have been asked to help make the occasion of his visit one of pleasure.

Lord Mayor O'Callaghan will arrive in Newark from Columbus early in the afternoon by automobile and will be met at the Hotel Warden by a delegation of several hundred men and women, headed by Mayor Herbert A. ## WILL OPPOSE TAX REFORM

Cornstalk Club Leader Takes Up Fight Against Move to Abolish Uniform Taxation.

Columbus, Feb. 21.—Although Washington birthday ceremonies, including special memorial services in the house and senate and a visit to the Ohio State University tomorrow, will break in on this week's activities of the legislature, much business is expected to be taken up after the solons return to their duties Wednesday. Both house and senate meet at five this afternoon for short sessions.

The fight of John H. Chester, leader of the Cornstalk club, against the proposal of heads of several farm organizations to abolish the uniform rule of taxation in Ohio, is expected to be pushed vigorously during the week.

Mr. Chester, in his opposition to the proposal, takes issue, not only with the farm organization but also with Governor Davis, who has expressed approval of the proposition.

He has denounced the consolidation committee going over election laws, is expected to be introduced during the week of a bill doing away with annual registration and providing for one registration for all time. The bill, after the general registration of all voters had been made, would provide that county authorities have on file complete lists of all qualified electors to be used in checking lists of petitioners for initiative or referendum propositions, on which heretofore there has been no check. Public hearings before the committees on elections are scheduled for the election bills after they are introduced.

The house judiciary committee will have hearings Wednesday morning on the McCoy bill proposing more rigid censorship of moving pictures. Hearings before the labor committee of the house include one Tuesday evening on the old age pension and occupational disease bill. On Wednesday morning the committee will consider the Mulhearn bill providing for an eight-hour day and 48 hour working week for women in industry.

## NO MORE MONEY TO BE PAID TO RUSSIAN GOVT.

Reply to Hearst Suit Says Europe Will Get No More Credits.

Questions Status of Hearst Entitles Him to Raise Question.

Washington, Feb. 21.—Denial that any portion of the money advanced to the Kerenky government of Russia is still under the control of Secretary Houston was made by Solicitor General William L. Frierson in a brief filed today with the district supreme court in response to the suit brought by William Randolph Hearst of New York as a taxpayer to enjoin the secretary of the treasury from further financial arrangements with foreign governments.

The brief also denied there was any intention on the part of the secretary of permitting funds under his control to be paid to the Kerenky or any other Russian government. Mr. Frierson declared there was no occasion for an injunction "as the defendant has no intention of granting further credits to any foreign governments as must have been known to the plaintiff when he filed his bill."

With regard to the payment of the unexpended balances now existing in favor of Czechoslovakia, France, Greece, Italy and Liberia, the solicitor general contended "the faith of the government was pledged" because those credits were established under authority of congress.

At the time of the overthrow of the Kerenky government, Mr. Frierson asserted, the balance of the credit in its favor was withdrawn and there remained in the hands of the Kerenky representative in this country about \$50,000,000.

"While this money had been paid over just as advanced to other governments were paid," the solicitor general asserted, "and the secretary of the treasury had no control over it, he was anxious to see that it was applied to the payment of obligations which the Kerenky government had incurred in this country and succeeded in securing an agreement by which it was deposited in the National City Bank to the credit of the Kerenky government or its representatives, with an understanding that the secretary of the treasury should be notified before withdrawals were made from the deposit."

In submitting that no injunction should be issued, Mr. Frierson asserted that the secretary did not admit that the plaintiff has a status entitling him to call in question the various credits or that the court has any jurisdiction to determine the controversy.

## CHIEF BAUSCH REMOVED BY MAYOR'S ORDER

Action Taken Following Probe of Gearhart Fire and Demonstrations By Fire Department.

Fire Chief Louis Bausch, for 42 years a member of the Newark fire department, was removed this afternoon by an order issued and signed by Mayor H. A. Atherton.

A copy of the order was dispatched to the bureau of safety director Lee S. Pemberton, and another to the civil service commission, as required by statute.

The order follows closely the investigation of the fire which a week ago destroyed the home of Councilman Gearhart and which is not completed, and two demonstrations by the fire department before the engineers for the New York Board of Fire Underwriters. The demonstrations were held Saturday and were entirely unsatisfactory to the engineers. It was stated today.

Fire Chief Bausch, who was understood to have retained counsel several days ago in connection with the probe of the Gearhart fire.

Charges named in the order include "incompetency, inefficiency and insubordination."

The inefficiency is alleged in connection with the Gearhart fire, and in the handling and training of men as evidenced in the demonstration Saturday and in the delegation of instruction of firemen to others.

Incompetency is called for his "failure to familiarize himself with the use of the major apparatus of the department."

Insubordination is charged in the "consistently refusing to obey the instructions of the public safety's instructions to bring the department up to a high state of efficiency."

His removal is to become effective Feb. 28, next Monday.

LOUIS BAUSCH.

## BELATED STORM BURIES EASTERN STATE IN SNOW

Transportation Is Crippled and Street Traffic Tied Up.

Snowfall Covered States North of Tennessee and East to Coast.

Washington, Feb. 21.—Although the blizzard which Saturday night and yesterday swept the east states from western Tennessee to New England had passed out to sea in a northeasterly direction, the big area it visited still was in the grip of the ice and snow it left behind. In many places, particularly in the vicinity of New York where the storm was at its worst and the mountainous regions of Virginia, Maryland and Pennsylvania, where the snow had piled in great drifts, the inhabitants had literally to dig themselves out and first reports of blocked rail traffic and demoralized wire service were shown to have not been exaggerated.

Many out lying districts had not been heard from today and the list of those who lost their lives directly or indirectly owing to the storm remained undetermined although it was definitely established that nine had occurred in New York. Nor had any serious marine disasters been reported despite the gale that swept the coast from Hatteras to Eastport Maine, and which attained a velocity of 63 miles an hour. Ship masters generally had been warned and either had remained in port or had scurried to sheltered harbors.

The blizzard swept over a large area extending from Tennessee to the lower New England states in the south and east and as far west as the Ohio valley. The snow fall measured from a few inches in the southern portion of the storm path to more than a foot in the mountains of Virginia and in the north states. Piled high by the wind the snow almost completely blocked railway traffic in many sections and those trains that got through were often hours late. In some places the storm not only was the first of any extent in the otherwise mild winter but was among the worst on record in a score of years.

The weather bureau here held out little hope of relief from the congestion of snow today but predicted warmer weather for tomorrow.

In contrast to the blizzard in the east was the unusually good weather in all other sections of the country. In the Great Lakes region and the Mississippi valley, westward, it was generally fair and in Florida the thermometer registered 74.

## TRANSPORTATION TIED UP BY HEAVY SNOWS

New York, Feb. 21.—New York's millions of workers, faced with impaired transportation facilities as a result of the 12 to 18 inches of snow which wintered Sunday, experienced difficulty and suffering in getting to places of employment today.

Commuter service from outlying districts was hampered by snow drifts, two to 10 feet in depth. In sections of the heart of business travel was impeded to a great extent.

Thousands of men with improved facilities for removing the snow were at work in an effort to clear it away for traffic in the storm which began before one o'clock Sunday morning, continued unabated until shortly after 10 o'clock last night. Nine persons lost their lives, either directly or indirectly as a result of the storm and hundreds were injured.

## MORE SNOW PREDICTED BY WASHINGTON BUREAU

Washington, Feb. 21.—Another snow storm over the greater portion of the territory east of the Mississippi and north of the Tennessee—North Carolina line is probably tonight or Tuesday the weather bureau official forecast said today. Generally the weather prevailed today after the storm of yesterday but unsettled weather was forecast tonight and Tuesday with rain in the southwestern states.

The snow fell yesterday was described by the bureau as heavy in Maryland, eastern Pennsylvania, New York, New Jersey and New England. At Boston there was 16 inches of snow on the ground this morning. Temperatures throughout this territory were low today but the bureau said they would rise slowly except in the Florida peninsula.

The minister declares he shot in self defense asserting Trumble was threatening him with a revolver when he fired the shot.

Although she is a scant sixteen years of age, Erika Morini has by her violin playing set the New York musical world to using all kinds of pleasing adjectives while grouchily newspaper critics have condescended to compare her favorably with Kreisler, Heifetz and Elman. Miss Morini is a Viennese and a pupil of Sevcik. She made her debut at the age of ten, playing the orchestra under the direction of Arthur Nikisch in Berlin.

## UNDERWRITERS ARE DISPLEASED

Two Demonstrations By Fire Department Will Be Commented Upon Tonight at Council Meeting.

J. H. Howland of the New York office of the Board of Fire Underwriters, and C. H. Townsend of the Chicago office held demonstrations of the apparatus of the fire department here Saturday, on the old Methodist church at 1150 in the morning and on the Swisher cigar building at 650 Saturday evening.

Mr. Howland stated to the firemen after the demonstration that their work was very unsatisfactory and showed them to be improperly trained. Both shifts failed to place the aerials properly for safe operation on the buildings.

The two underwriter agents came to Newark to check up on the report made here last August. Safety Director Pemberton stated this afternoon that Mr. Howland would probably return to Newark this evening to make a report of conditions here to the city council which meets tonight.

## GIVE FACTS AND AVOID SPEECHES WELTY IS TOLD

Landis Charges Cause a Stormy Scene Before House Committee.

Hot Exchanges Between Welty and Volstead Take Place.

Washington, Feb. 21.—Somewhat stormy scenes occurred before the house judiciary committee today with the presentation of impeachment charges against Federal Judge Landis by Representative Welty, Democrat, Ohio. Mr. Welty read his charges as outlined before the house last week and was subjected to a cross fire of questions.

Representative Walsh, Republican, Massachusetts wanted to know if Mr. Welty had any proof that Judge Landis in acting as supreme abettor of organized criminality had neglected his official duties. The Ohio member said he would "unload the facts."

"When you are trying to catch a rabbit you've got to follow his tracks," he said in reply to another question. "I am trying to unburden myself."

"Well, give us the facts and don't make so many speeches" admonished Chairman Volstead.

The Ohio member then offered a telephone call from District Attorney Clyde of Chicago, saying 121 criminal and 309 other cases were pending in Judge Landis' court.

"If many were tried last year?" Chairman Volstead asked in a question.

"If you want to know you can find out," Welty replied.

"I'm not going to be l-sued by you" announced the chairman. "I want a civil answer."

Declaring it was outrageous that Judge Landis should be drawing \$42,500 from organized baseball, representative Husted, Republican, New York insisted, the committee wanted facts on which an indictment could be drawn.

"In other words a legal way to impeach him if we can" suggested Representative Boies, Republican, Iowa.

The cross fire of questions became so hot that Volstead suggested the baseball players are guilty of bribing Judge Landis' Mr. Welty shouted.

This statement was made in connection with the indictment for throwing games, but the question quickly shifted to other subjects.

Representative Gard, Democrat of Ohio wanted Mr. Welty to get down to brass tacks on his charge that Judge Landis had neglected his official duties.

Another suspect arrested near Marion, Ohio, probably will be brought here for questioning.

## SAFETY COUNCIL PLAN DRIVES ON ACCIDENTS

Chicago, Ill., Feb. 21.—A plan to apply the Foch strategy which won the world war to the war on industrial accidents is announced at the headquarters of the National Safety Council in Chicago. Although there has been a through the medium of the National Safety Council a constant change of information regarding the effective methods of preventing accidents, safety campaigns have been conducted independently by the 8,000 member plants of the council. Despite the great strides which have been made in the prevention of accidents by these scattered campaigns, there are still approximately 29,000 workers killed, and 600,000 injured in industrial accidents each year, according to statistics of the council. It is expected that the new plan will make possible great reductions in these figures.

During 1921 the members of the council under this new plan are attempting a unified and intensive accident prevention campaign. The plan announced by the council calls for a concentrated attack, through all available means, on a different hazard each month.

Thus during January in approximately 8,000 industrial plants, mines, railroads and other public utilities throughout the country a special campaign was conducted against ladder accidents. It is estimated that 1,000 persons are killed in ladder accidents each year. The February campaign, now under way, is against neglect of minor injuries and infections arising therefrom.

Campaigns are announced for the other ten months against the following hazards:

March—Unsafe clothing.  
April—Inattention.  
September—Fire.  
October—Health hazards.  
November—Careless handling of materials.  
December—Eye injuries.

Several churches of this county will send their ministers as delegates to international pastors' convention in Columbus Tuesday, Wednesday and Thursday, March 1, 2 and 3. Pastors from this county who expect to attend the convention include: Rev. F. M. Eby, Hebron; Rev. B. R. Weld, Newark; Rev. J. V. Stone, Newark; Rev. J. P. McNeilan, Kirkcubright; Rev. D. B. Martin, Utica; Rev. J. M. Bradbury, Johnston; Rev. Calvin G. Hazlett, Newark.

The convention has been called by the Ohio Federation of Churches as a step in preparation for the statewide interdenominational campaign of evangelism which is to be conducted this spring.

Several nationally known religious leaders will speak. Among the speakers are: Rev. James M. Taylor, noted Methodist Episcopal minister of Pittsburgh; Bishop William E. Anderson, Methodist Episcopal of Cincinnati; Bishop Frank DuMoulin of the Protestant Episcopal diocese of Northern Ohio, Cleveland; Gypsy Smith, noted evangelist, who is conducting a campaign in Columbus; Rev. Jesse M. Eber of St. Louis, secretary of the evangelistic commission of the Disciples of Christ; Rev. F. L. Eagle of New York, secretary of the Congressional evangelistic commission; Rev. F. Q. Blanchard, Congregational pastor of Cleveland; Rev. John L. Forte of Louisville, Ky., author of the "Unit system" for personal evangelistic work in the Methodist Episcopal church; Rev. C. C. West, pastor of Granview Community church, Columbus; President W. O. Thompson of Ohio State university; President Walter G. Clippinger of Otterbein College; President J. Knox Montgomery of Muskingum college and Rev. Moses Breeze, Presbyterian minister of Columbus.

Presiding officers for the various sessions include: Rev. Robert E. Pugh, of Columbus; a former Newark boy; Rev. S. S. Palmer of Columbus; moderator of the General Assembly of the Presbyterian church, Rev. C. M. McConville and Rev. F. W. Luce of Cleveland.

Sessions of the convention will be held at the First Congregational church in Columbus. The morning of the second day will be devoted to denominational group meetings. It is expected that 1,500 ministers of 15 or 20 denominations will be present.

Churches have been urged to send their pastors as delegates to the meeting, paying all their expenses, on the same principles as a business firm, hotel or organization sends its representatives to conferences. Attendance at the meeting, say leaders of the Ohio Federation of Churches, will increase the pastor's value to his church.

banquet and will introduce the Lord Mayor, who will speak briefly.

At 8 o'clock Lord Mayor O'Callaghan will speak at the high school auditorium on conditions in Ireland. He will tell of the struggle which the Irish people have been having in their efforts to gain independence. He will tell of the Black and Tans, the burning of buildings in and around Cork and the suffering through which the Irish people have been forced to go. His talk also will be an appeal for recognition of the Irish Republic by the United States. After he has completed his address Lord Mayor O'Callaghan will invite his audience to ask him questions on any phase of the Irish situation. His friends say he is anxious to answer questions so that the people may know the truth of conditions.

Mayor Atherton's proclamation ordering suspension of business for a two hour period following O'Callaghan's arrival in Newark met with approval by sympathizers with the Irish cause. It was said today. It will enable hundreds to meet the visitor who otherwise would have been deprived of the opportunity, they said. And, they point out, it will be according fitting honors to a man who holds so high an office in a European country.

The Lord Mayor of Cork is 29 years of age and succeeded the late Lord Mayor Terence MacSwiney, whose death in Brixton prison, London in October following a 74 day self-imposed fast, created intense interest. MacSwiney had succeeded Lord Mayor Thomas MacCurtain who was assassinated in his home in March, 1920. MacCurtain, MacSwiney and O'Callaghan were bosom friends. It is said by local sympathizers with the Irish cause and all three had been closely identified with the Irish republican movement since its inception.

O'Callaghan came to this country at the invitation of the Commission of One Hundred, sitting in Washington for the purpose of investigating conditions in Ireland. Being without pas-

ports he was arrested by the immigration authorities as a stowaway. Later his status was changed to that of a seaman and he was issued a certificate which permitted him to remain in this country until February 11. Last week counsel for O'Callaghan filed an appeal asking that his status be changed to that of a political refugee. It was charged in the appeal that O'Callaghan's forced return to Ireland at this time would probably result in his arrest and imprisonment by the British military authorities in Ireland.

O'Callaghan's Newark address will be the first he had made since filing his appeal for permission to remain in this country and it will be his first appearance in an Ohio city. From here he will begin a speaking tour of the continent setting forth conditions in Ireland and making a plea for recognition. Captain Robert Montieth, an officer in the Irish Republican army and who has been in Ohio for several weeks will accompany Lord Mayor O'Callaghan to Newark.

## CENTRAL CHURCH HOLD SERVICES THIS WEEK

Large audiences attended all services of the Central Church of Christ yesterday. The special service will continue this week each evening at 7:30 o'clock. There have been fourteen additions to the church. Mr. Crow is earning much praise by his leadership of the large choirs and by the solos he sings at each service.

Mr. McCarter will speak tonight on the subject "The Heart of the Gospel."

## CRUDE OIL SUFFERS ANOTHER PRICE CUT

The petroleum purchasing companies at Pitts and today announced a further reduction in prices from 15 to 25 cents in the price of crude oil.

The quotation are:  
Pennsylvania crude \$2.25, Cabot \$2.36, Kansas \$1.75, Somerset light \$2.96, Ragland \$1.75. The prices of foreign crude have been reduced 50 cents; that of Cabot, Somerset and Somerset light 25 cents and that of Ragland 15 cents.

## JAP WOMEN SEEKING HIGHER EDUCATION

Tokio.—The problem of Japanese women seeking higher education is not to demand that the doors of the Imperial University be opened to them, but to improve and raise the standards of their present schools so that they will be prepared for entrance to the university. In the opinion of Mrs. Lilian Francis Fitch, representing the bureau of education of the department of the interior of the United States, who has spent the past four months in the Japanese Empire on an official investigation for the American government.

"At present," says Mrs. Fitch, "the schools for girls here are in many respects excellent, but they do not go high enough in their work. The girl who is graduated from them is not equipped to enter the Imperial University, but should have further training."

Mrs. Fitch, who came to Japan last September as the first stage of a tour around the world for the bureau at Washington, has made an extensive study and investigation of women's schools in the empire. She has conferred with Marquis Tokuro and other leaders of Japanese life and thought and has addressed many of the girl students of the nation.

The movement for the admission of women to the higher schools is rapidly gaining momentum, the American educator thinks.

## NEWARK SCOUT BECOMES ONE OF 2383 VETERANS

The local headquarters, Boy Scouts of America, this morning received a certificate of registration in the Veteran Scout organization for Scout Daniel K. Wilson of Troop 6, Scout Wilson's Veteran number being 2383.

This is the first Veteran Scout registration to be received in Newark. A boy is eligible to membership in the veteran association, after five years of service in the movement, providing he has become a first class scout, and that he agrees to live up to the scout obligations for life, that is put the scout oath and law into practice in his daily life, and to take an active part in the promotion of Scouting.

Scout Wilson entered Troop 6 at the age of 12 and has been a member of that troop continuously until the present time. He is a first class scout with 12 merit badges, and he is chief of the Newark tribe of Gimogash, and manager of the Scout Orchestra. He will be commissioned assistant scoutmaster this spring.

Prior to the world war the United States gave 2631 medals of honor.

## WOMAN SICK FOUR YEARS

### Was Finally Made Well by Lydia E. Pinkham's Vegetable Compound

Steens, Miss.—"I was all run down and nervous with female trouble and my sides pained me so at times that I could hardly walk. I suffered for four years with it. Then I saw your advertisement in the papers and I began taking Lydia E. Pinkham's Vegetable Compound. I feel stronger and am able to do most of my housework now. I recommend your Vegetable Compound to my friends and you may use this letter if you care to do so." Mrs. W. H. BLAKE, Route 1, Steens, Miss.

How many women, overworked, tired and ailing, keep up the ceaseless treadmill of their daily duties until they are afflicted with female troubles as Mrs. Blake was, and are run down, weak and nervous. But every such woman should be convinced by the many letters like hers which we are constantly publishing, proving beyond question that Lydia E. Pinkham's Vegetable Compound will overcome such troubles and restore women to normal health and strength. Letters about your health will be given careful attention and held in strict confidence if you write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

## JAPANESE VOLCANO AGAIN IN ERUPTION

Tokio.—Mount Asama, the volcanic peak which dominates the upland missionary summer resort of Karuizawa, is again in eruption. Yesterday evening thunderous explosions shook the entire district, followed by the bursting forth from the crater of the mountain of an immense quantity of ashes and lava. The prevailing moonlight disappeared in the blackened shroud and a series of earth shocks tended to increase the alarm of the inhabitants of the entire surrounding district as far as Tokyo and Maebashi. No loss of life is reported but many people are preparing to leave the towns at the foot of the mountain.

## AMERICAN WOMAN WINS HONORS WITH JAP POEM

Tokio.—Mrs. Charles Burnett, wife of Colonel Charles Burnett, military attaché to the United States embassy, has been awarded the distinction of being named in the foremost rank of poets in Japan in consequence of her New Year's poem, "Before the Shrine at Ise at Dawn."

Mrs. Burnett is the first foreign woman to have her verse read before the imperial family in the Phoenix hall at the palace. Her contribution submitted anonymously and judged from a purely literary point of view was selected from among some 17,000 sent from all parts of the empire. It was written in Hira-kana, Japanese characters and conformed in every respect to the requirements of the time-honored custom of "Uta-hawase" (the opening of imperial poems) dating from the ninth century when imperial poems came into existence as a court function.

A free translation of the poem is: Before the Shrine of Ise at Dawn. In the Dawn of the New Year I behold the ancient portals of Eternal Truth Behold! in changeless Majesty, The Light of God.

Mrs. Burnett's verse was submitted the latter part of December written in Hira-kana and is of perfect technique and character.

It attracted so much attention that it was sent to the imperial household, who thought it so fine it was submitted anonymously to the imperial investigation committee attached to the imperial bureau of poems. They selected it and pronounced it perfect in diction and calligraphy. The poem could not be gazetted so it was sent to their imperial majesties at Hayama.

Viscount Kaneko of the privy council, said: "Japanese literary authorities regard Mrs. Burnett's genius for interpretation as being of an unusual order and she is the first foreign woman ever recognized in Japan as a poet in the Japanese language."

Tattooing is rare in Central Africa, the color of the natives' skin not allowing the pattern to appear to advantage.

**AUTHOR'S RECORD**  
In "Thoughtless Women," the offering at the Grand theater, to be presented on Wednesday, Alma Rubens plays a more powerful part than has fallen to her in many roles.  
Producers in the past have been Miss Rubens, and it is a fact that this talented young woman has the fullest opportunity to do so.  
The story of "Thoughtless Women," which is an offering of the Grand from "Thoughtless Women," is the activities of a father, who is a

hypocrisy incur unbearable hardships on her daughter. The latter's rebellion against the destiny created by her own mother, brings the picture to a climax that has seldom, if ever, been worked out on the screen.  
The author, producer and director, Daniel Carson Goodman, has given the star a vehicle of unusual merit. He has treated his production in a human manner and one of the outstanding features of "Thoughtless Women" is the beautiful lack of any artificial stock character in it.

The fact that this production of Hitchy-Koo is guaranteed to be the original one direct from its record-breaking run of two solid years in New York, with scenery and costumes absolutely intact, probably accounts for the extraordinary interest this city is taking in the engagement here. In any event, it looks now as if the New Hitchy-Koo will be greeted by the biggest audience that has ever turned out to see a road attraction in this city.

**DOROTHY GISH IN NEW COMEDY AT ALHAMBRA**  
Does your husband ever stray from the "straight and narrow"? Has he a weakness for pretty faces, besides his wife? If so, Dorothy Gish will give you some practical hints as to how to lead him back into the fold in her latest photoplay, "Remodeling Her Husband," which will be the feature at the Alhambra theater for 2 days commencing Wednesday.  
According to the story, the vivacious star, as Janie Wakefield, marries a male flirt, who has a hard time making his eyes behave when pretty ladies are about. After a couple of his flirtatious escapades, Janie leaves him for home and mother. But later she takes cour-

age and, by a clever scheme, transforms him into a most submissive and repentant husband.  
"Remodeling Her Husband" was directed by Lillian Gish and James Rennie is the leading man. The picture is a Paramount Aircraft.

AIRPLANE PATROLS SAVE MILLIONS IN TIMBER

New York, Feb. 21.—Airplane patrols guarding national forests saved approximately \$35,000,000 worth of standing timber from forest fires during the last season, according to a report of the Manufacturers' Aircraft Association, made public today.

Between 900 and 1,000 fires were reported by patrols from airplanes loaned to the forest service by the army air service. Most of these fires, it was said, were extinguished by ground forces working under directions of the air patrols.

Efforts are being made by the association, its officers said, to secure a larger appropriation from congress in order to carry on and extend the patrol work.

The work for the most part has been carried on in Oregon, California, Colorado and other western states.

**Readers' Viewpoint**  
**ABOUT MR. MARCOSSEN.**  
Editor of the Advocate: In the Saturday Evening Post of January 8, Isaac F. Marcossen says: "Turn the searchlight on the political and economic chaos that has followed the Great War and you find a surprising lack of real leadership. Out of the mists that enshroud the world welter only three commanding personalities emerge. In England, Lloyd George survives amid the storm of party clash and civil discord. Down in Greece, Venizelos remains an impressive figure of high ideals and uncompromising patriotism. Smuts, youngest of the trio, looms up as the most brilliant statesman of the day, and his career has just entered upon a new phase."  
This is the introduction to a leisurely ramble through the gardens of Jan Smuts' estate, Croote Schuur, in South Africa. Such a ramble, whether in Africa or in the Post, is a naughty temptation to swallow bits of rare fruit with one's eyes closed. It would be unfair to impugn the correspondent's motives. It would be nonsense to think that Will Hays had sent Isaac on a blackberrying expedition to South Africa, if Isaac maintains that he was making merely gestures, then I contend that they were too sweeping.  
Has not Herbert Hoover emerged from the world welter a commanding figure? To be sure, he was snowed under at the Chicago convention, and it is likely that he will not emerge as one of the "Big Minds" in Mr. Harding's cabinet. "Certain interests are opposed to his taking a seat in the cabinet." Even this is none of our business since the verdict of last November is open to only one interpretation: "The people have delegated all power to us. We shall run the government as we will." The Republicans are right, because they know that the people will let them get away with it. Herbert Hoover, however, retains his leadership as real that it becomes formidable. Where was he when Mr. Marcos-

son made this survey of the world? Where was Mr. Marcossen?  
The Post correspondent speaks of Venizelos: "Down in Greece, Venizelos remains, etc." Shouldn't this read, "In Greece, Venizelos remains down, etc." A choice tit-bit to hold out to millions who are always out of sight! But it doesn't matter. They never bite anyhow. With their eyes shut, they swallow them whole. Venizelos is a Greek. "Venizelos" to be correspondent says "remains an impressive figure of high ideals and uncompromising patriotism." All of which means, of course, that on November 20, 1920 Mr. Venizelos was decisively defeated in the Greek elections. Three weeks after President Wilson was reelected in the American elections, the friend of the Greek people was given his hat. A striking scene from the battle at the Paris Peace Conference: Venizelos stood alone with Woodrow Wilson in telling the Allies that the several secret treaties had to be abrogated as a point of honor. While this Greek was upholding the hands of the American President crafty politicians at home manipulated the menu card so that the people ordered fish. In Greece, people didn't get what they wanted, but they got what they ordered.  
Indeed, down in Greece Venizelos remains an impressive figure of high

## BREAK GROUND FOR NEWARK MEMORIAL AT AN EARLY DATE

Contracts for Granite Building Will Be Let In a Short Time—Architect Visits Here.

Ground will be broken and work started on the magnificent Newark Memorial (Mausoleum) in Cedar Hill cemetery early in April, according to an announcement Monday of General Manager Charles R. Raynor following a visit here of Architect W. H. Lee of Philadelphia, Pa., who drew the plans and will superintend the erection of the structure. While here Mr. Lee visited the site for the memorial in Cedar Hill and took care of a number of matters leading to the letting of the contracts at an early date. Mr. Lee was the guest of Mr. Raynor at his home on Hudson avenue for several days and has now returned to his home.

During a conversation Architect Lee stated that he was well pleased with the location for the memorial especially because there will be ample space about the building for attractive landscaping. "Newark will have one of the best constructed, most beautiful and attractive memorials in the country," Mr. Lee commented.

While preliminary work for the ground breaking is getting under way the work of interesting Newark residents in the structure is progressing rapidly and it is planned to bring this part of the work to a close early next month. Now that the people of Newark are assured of a handsome memorial, the goal to be reached in the country, those interested in this better and more humane way of caring for their loved ones when sorrow enters their home, should communicate at once with the offices of the company, The Licking Mausoleum Co., Trust Building.

## HARDING FIRST EDITOR ELECTED

Lawyers Seem to Be Preferred Timber For Nation's Chief Executive, Records Show.

Washington, Feb. 21.—Warren G. Harding is the first newspaper publisher to serve as president of the United States. The is the 29th chief executive, reckoning Cleveland's two terms as separate one because he was the only president serving twice who was not re-elected.

Nineteen presidents were lawyers, at the time they were elected. Three are classified as statesmen, two as soldiers, two as farmers, one as a public official. Mr. Harding might also fall within the class of statesmen as he had served six years in the senate when elected and was the first senator to be elected president.

Virginia leads in the nativity of presidents. Eight of her sons—Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler, Taylor, and Wilson—have held the highest office in the gift of the nation.

Ohio has given seven native sons to the presidency—Grant, Hayes, Garfield, Benjamin Harrison, McKinley, Taft and Harding.

Eighteen presidents have been college men; one was graduated from West Point, nine had no college education.

## ACCIDENT VICTIM WAS SON OF TRAINMASTER

The identity of the man supposed to be George Ebert who was found dead Saturday morning along the Pennsylvania tracks east of town with his body and face crushed, was established Sunday when his father, D. E. Ebert of Ft. Wayne, Indiana, arrived and left at noon with the body for the home in Ft. Wayne.

Mr. Ebert stated to T. A. Bazler that his son was 29 years of age and had been employed by the Pennsylvania railroad as a brakeman and had been working out of Dennison.

A man named Cashdollar from Dennison, Ebert's roommate, also came to Newark Sunday and said that on Friday Ebert had been in a cut at Dennison in which 35 men were killed.

The young man's father said that he thought that his son was on his way home and for some reason or other was riding the freight train.

It is also believed that he attempted to leave the train east of town and that he got caught on the top and he was dragged along, as the heel was torn from his shoe, the skin was scraped along one of his legs, and the marks on his head and along the ties every so many feet showed that the body had been dragged.

He is survived by his parents and one sister. His father who is a B. & O. trainmaster employed in Chicago, was accompanied by his son-in-law. They left with the body at 12:20 over the Pennsylvania for Ft. Wayne.

The money was turned over to the owner while the table and chairs were taken to the patrol house where they will be destroyed by Safety Director Pemberton and Mayor Atherton, according to ordinance.

The men arrested furnished the following fictitious names for the arrest sheets: Joe Myers, Chester Smith, Frank James, John Birdson, George Goff, John Smith, George Lewis, John Wood and Bill Jacobs.

### FUR AUCTION TO OPEN TOMORROW

Millions of Pelts Will Be Placed On Sale at St. Louis—Expect 500 Buyers to Attend.

St. Louis, Mo., Feb. 21.—Millions of pelts, valued at more than \$15,000,000, will be thrown on the market here tomorrow at the opening of the winter auction sale of the International Fur Exchange.

The sale will continue through March 5. It originally was scheduled to begin October 4, and continue two weeks, but was postponed until February 1, then until tomorrow, because it was explained of unsettled market conditions, due in part, to the recent strike of employees of eastern manufacturers of fur garments.

More than half the pelts to be disposed of, it was said, will be sold in payments of indebtedness to the exchange. Several hundred dealers are debtors of the exchange.

Albert A. Ahern, vice president, amplified, because of inability to pay for consignments purchased at previous sales, due to the semi-demoralized market. Many of these firms are solvent. Mr. Ahern added, and the exchange merely will receive the consignments to take them off their hands.

Included in the lots to be sold are 2,625,000 moles, 2,110,000 squirrels, 1,234,000 muskrat and 75,000 opossum. Among the more valuable furs listed are 20,000 ermine, 8,700 Russian sable, 1,300 silver fox and 2,000 sea otter.

It is expected that more than 500 buyers, a number from many foreign countries, will attend the sale.

### BOSTON MAKES TESTS OF FOOD REACTIONS

Boston, Feb. 21.—To learn what is one man's food and another's poison, experiments are being conducted at three Boston hospitals in protein sensitization. Patients are inoculated with proteins from foods and other substances and subsequent cutaneous reactions or absence of reactions indicate whether these proteins are hostile or friendly. The research has been applied especially to the study of causes of bronchial asthma and hay fever, but is being extended to other diseases, including indigestion and children's ailments.

In applying the test, the physician makes a tiny scratch on the skin, usually of the arm, applies a drop of a weak solution of sodium hyalate and in this places the proteins of whatever substance he suspects as the cause of the patient's discomfort.

If the patient is one in which the patient is sensitive, a hives or red spot appears half an hour after the test is applied, and the physician knows that the cause of the ailment has been found.

If the patient is a baker, flour dust may be under suspicion and proteins from that would be tested. In the case of a hostler proteins from horse hairs would be tried out first, probably. Pollen from ragweed, timothy and other plants which are recognized sources of sneezing distress to many persons come within the scope of investigation.
